[🌐 https://nfrikha.pages.math.cnrs.fr/](https://nfrikha.pages.math.cnrs.fr/)

Research Interests

- | | |
|----------------------|---|
| Probability | ■ Stochastic analysis, stochastic control, numerical probability. |
| Mathematical Finance | ■ Machine learning for finance, risk measures, ... |

Employment History

- 2022 – ■ **Full professor of Mathematics**, Université Paris 1 Panthéon-Sorbonne, CES.
2012 – 2022 ■ **Associate Professor - Maître de conférences**. Université Paris Cité, LPSM.

Education

- 2017 ■ **HDR, Université Paris Cité, LPSM.**
HDR title: *Stochastic approximation, Markovian perturbation of stochastic processes and their applications.*
- 2008 – 2010 ■ **Ph.D., Sorbonne Université, LPSM and ENGIE.** CIFRE contract.
Thesis title: *Contribution à la modélisation et à la gestion dynamique du risque des marchés de l'énergie.*

Research Publications

Phd Students

- 2018–2021 **Houzhi Li**, Analyse de certaines équations non-linéaires de type McKean-Vlasov et applications à la théorie stochastique de portefeuille. Defense: 30th March 2021. Co-supervision with P. Tankov.
- 2019–2022 **Junchao Chen**, Aspects théoriques et numériques de certaines EDPs non-linéaires: résolutions par méthodes d'apprentissage et applications à la finance. Defense: 24th March 2022. Co-supervision with J.-F. Chassagneux.
- 2021–2024 **Azar Louzi**, Multi-level learning schemes and financial applications. Defense: December 2024. Co-supervision with S. Crépey.
- Xuanye Song**, Mean-field Reinforcement learning in continuous time: theoretical and numerical aspects, and applications. Defense: December 2024. Co-supervision with H. Pham.
- 2022– **Dounia Essaket**, Risques climatiques et risques extrêmes, Approche XVA. Start: October 2022. Co-supervision with S. Crépey.
- 2024– **Martin Arnaiz Iglesias**, Some learning schemes for the Risk Budgeting problem. Start: October 2024.
